October 2, 1978

Dear Charles:

Thank you for the prompt response to my cry for help. We managed to get through that particular crisis without skipping a beat.

I thought you'd like to see the copy for the membership mailing which is being prepared. Along with Bergland's letter and the flyer on Burt's book is a small enclosure - a note from Ed Clark and Gary Greenburg urging people to join national because it helps state parties and local candidates. The new, improved letter from Sam Husbands to the FEE donors is also being prepared. Our wonderful computer service assures me that we'll have the correct labels this time (incidentally, I'm checking into other services). The letter includes an offer of Leonard Read's newest book in return for a \$25.00 contribution.

Finally, I thought you'd be interested in the enclosed program from the World Power Foundation, which I believe to be connected with Reason magazine. These people appear to be somewhat gradualist and counter-productive. I approve of Slavery, Human Sacrifice, and Polygamy as appropriate methods, but I have some real reservations about "making contact with vampire cults," since vampires are notoriously bad on foreign policy. Perhaps we could form an ad hoc, single issue coalition on the human sacrifice question. I'll see what Evers thinks.

Anyway, Charles, thanks again. I think we're going to have a very good year.

Cordially,

Chris Hocker  
National Director
